Sheep Finisher 16%

Formulated to achieve high growth rates to fatten lambs

- ✓ This is a palatable, high energy and protein ration designed to achieve high growth rates and fatten ewe and lambs.
- ✓ Is safe to feed; supplying high levels of buffers to maintain rumen pH and reduce the incidence of grain derived metabolic problems such as acidosis and bloat.
- ✓ It is formulated to reduce the incidence of urinary calculi (water belly).
- ✓ Has adequate fibre levels to promote rumination, creating a healthy rumen environment that will improve utilisation of feed and maintain safety of feeding.
- ✓ Contains high levels of vitamins and minerals to enhance growth and flock health.
- ✓ Suitable to be fed to all classes of sheep that need to be finished quickly.
- ✓ This is a premium product containing only high quality ingredients, with an unmatched nutritional analysis compared to similar products. We encourage you to compare our product analysis with any competitors.

Analysis per kg

Protein	Min.	16.00	%	Copper	Min	8.00	mg
Energy (ME)		11.00	MJ	Iodine	Min.	0.50	mg
Crude Fat	Max.	3.00	%	Iron	Min.	90.00	mg
Crude Fibre	Max.	10.00	%	Manganese	Min.	80.00	mg
Salt	Min.	1.00	%	Selenium	Min.	0.70	mg
Calcium	Min.	1.30	%	Zinc	Min.	110.00	mg
Phosphorus	Min.	0.50	%	Vitamin A	Min.	18,000	IU
Magnesium	Min.	0.30	%	Vitamin D	Min.	450	IU
Sulphur	Min	0.45	%	Vitamin E	Min.	30.00	mg
Cobalt	Min.	1.00	mg	Lasalocid	Min.	33.00	mg

Contains 33 mg/kg Lasalocid as an aid to improve growth rate, feed efficiency and the prevention of coccidiosis

Feeding guide

- Commence feeding at a rate of 0.25% of body weight / head / day. Increase gradually over a 3 week period to 0.75-1.0% of body weight or at rate required to achieve target feeding goals.
- Introduce pellets gradually and do not allow pellet supply to run out.
- Feed in troughs or feeders. When feeding in self feeders, pellet intake can be regulated by adjusting the shutters. Lowering the shutters will reduce intake.
- Ensure good quality roughage such as pasture, hay or straw is available at all times.
- Ensure sufficient trough space to minimise competition.
- Ensure supply of fresh, clean drinking water at all times.
- Call a Nutramix Representative for more information.

Warning

- Use strictly as directed
- For Animal Treatment Only
- Do not feed to other animals – may be fatal
- **This product does not contain restricted animal material**

Pellet advantages.

- Easy to handle, can be augered and stored in silo.
- Runs very well in self feeders.
- Improved digestibility.
- Minimises wastage, reduces dust & eliminates separation of ingredients

**Storage**

- Store in a cool, dry place

Available in : 20 kg bag; Bulk Bag or Bulk
